

## Treatments / diseases covered

<b>Cardiology &amp; cardiac surgery</b>	<ul style="list-style-type: none"> <li>● Pacemakers, including CRT / biventricular pacemaker.</li> <li>● Automatic implantable cardioverter defibrillator (AICD) and combo devices.</li> <li>● Coronary artery disease, including diagnostic cardiac catheterisation and coronary angiography.</li> <li>● Interventional procedure, including angioplasty, with or without stents, rota-ablation, balloon valvuloplasty.</li> <li>● ASD, VSD and PDA device closure.</li> <li>● Peripheral vascular angioplasty, including carotid angioplasty and renal angioplasty, aortic surgery and stent grafting.</li> <li>● Coil embolisation and vascular plugs.</li> <li>● Electrophysiological studies (EPS) and radio frequency (RF) ablation.</li> <li>● Cardiovascular surgery for congenital and acquired conditions including valve replacement.</li> <li>● Heart/lung transplantation.</li> <li>● Intra aortic balloon pump.</li> <li>● Thrombolytic therapy for acute myocardial infarction, pulmonary thromboembolism and prosthetic valve thrombosis.</li> <li>● IVC filter.</li> </ul>
<b>Cancer</b>	<ul style="list-style-type: none"> <li>● Radiation treatment of all kinds, including radiotherapy and gamma knife surgery / GRT / MRT / brachytherapy.</li> <li>● Anti-cancer chemotherapy with supportive medication, including hormonal therapy.</li> <li>● Bone marrow transplantation.</li> <li>● Diagnostic procedures, including PET scan.</li> <li>● Surgery for operable malignant tumours.</li> </ul>
<b>Urology / Nephrology / Gastroenterology / GI Surgery</b>	<ul style="list-style-type: none"> <li>● Dialysis (both haemodialysis and peritoneal).</li> <li>● Plasmapheresis in ABO incompatible donors.</li> <li>● Continuous RRT in acute renal failure.</li> <li>● Vascular access consumables (AV grafts, catheters, including perm catheters) for dialysis.</li> <li>● Renal transplant (ceiling cost may be upto CGHS rates).</li> </ul>

	<ul style="list-style-type: none"> <li>• USG guided PCNL and USG guided SPC.</li> <li>• Endoscopic surgical procedures in urology, including CPE with TURBT, CPE with endoscopic catheterisation, and CPE with clot evacuation.</li> <li>• Endoscopic surgical procedures in GI surgery.</li> <li>• Acute GI emergencies like acute pancreatitis, GI bleeding, cholangitis, peritonitis, intestinal obstruction, biliary stricture, acute fulminant hepatitis, hepatic encephalopathy and hepatic abscess.</li> <li>• Liver transplantation and surgery for portal hypertension.</li> </ul>
<b>Gynecology</b>	<ul style="list-style-type: none"> <li>• Uterine artery embolisation for postpartum hemorrhage.</li> </ul>
<b>Orthopedics</b>	<ul style="list-style-type: none"> <li>• Treatment of traumatic and pathological fracture.</li> <li>• Implants for joint replacement.</li> <li>• Spinal fixation Implant.</li> </ul>
<b>Endocrinology</b>	<ul style="list-style-type: none"> <li>• Complications and sequel of diabetes, which require one-time treatment. For example, amputation or renal transplant or retinal detachment and glaucoma.</li> <li>• GH deficiency.</li> </ul>
<b>Neurosurgery / Neurology</b>	<ul style="list-style-type: none"> <li>• Brain tumours.</li> <li>• Head injury.</li> <li>• Intracranial aneurysms and aneurysms of neck vessels.</li> <li>• Vascular malformations of brain and spinal cord.</li> <li>• Spinal tumours.</li> <li>• Degenerative/demyelinating diseases of brain/spinal cord.</li> <li>• Cerebrospinal stroke.</li> <li>• Status epilepticus.</li> <li>• Movement disorders.</li> <li>• Neurological infections (acute/chronic).</li> <li>• Traumatic spinal injury.</li> <li>• Occlusive vascular disease of the brain.</li> <li>• Guillain barre syndrome.</li> <li>• Myasthenia gravis in crisis (medical and surgical).</li> <li>• Acute polymyositis with ventilatory failure.</li> <li>• Acute or chronic autoimmune diseases.</li> </ul>
<b>Mental Illness</b>	<p>Any treatment requiring one-time grant for mental disorders, including:</p> <ul style="list-style-type: none"> <li>• Organic psychosis (acute / chronic).</li> </ul>

	<ul style="list-style-type: none"> <li>• Functional psychosis, including schizophrenia, bipolar disorders, delusional disorders and other acute polymorphic psychosis.</li> <li>• Severe OCD, somatoform disorders.</li> <li>• Developmental disorders, including autism spectrum disorders and severe behavioral disorders during childhood. 5) Psycho diagnostics, neuropsychological assessments, IQ assessment, blood tests like serum lithium and drug level of carbamazepine, phenytoin and any other similar medications.</li> </ul>
<b>Miscellaneous</b>	<ul style="list-style-type: none"> <li>• Any life saving procedure or any major illness / treatment / intervention, considered appropriate for financial assistance by a medical superintendent / committee of doctors, could be considered for grant.</li> </ul>
